Vegetable Seed Trials

Cutchogue, L. I., N. Y.,

January 6th, 1932.

TO MY FRIENDS AND CUSTOMERS:

Please accept this, my catalog for season of 1932, with my best wishes for the New Year and with thanks for your much appreciated patronage of last year.

The year 1931 gave the most of us some pretty hard knocks, but we are still alive and the sun will shine again some day.

We have our usual fine stock of Fordhook Bush Lima Beans, all kinds of Peas, Beans, Brussels Sprouts Seed, Cauliflower Seed, Onion Sets, Grass and Clover Seed, Lawn Grass Seed and all kinds of Garden Seeds. Prices are very low even though the quality is the very best procurable.

I have put the name of "Sterling" on many of my highest quality seeds. Follow the "Sterling" mark and you won't go wrong.

Premier, Mastodon and many others kinds of Strawberry Plants are in good supply and are nice plants. It pays to buy your plants near home. They are acclimated and ready to go.

Perennials, Flowering Shrubs, Hedge Plants, Fruit Trees of all kinds, Shade Trees, Evergreens, Iris, Narcissus, Peonies etc., we have in large supply and there is always someone who would be pleased to show them to you. Your inspection is invited.

Grading, Landscaping, Planting and Seeding is another thing we specialize in. We ask for the privilege of laying out your place, offering suggestions, figuring on the job or any way to help you beautify your place. See the inside of back cover for more on this subject.

The writer is a licensed Real Estate Broker and will be pleased to quote you prices on anything you might want, such as Building Lots, Shore Frontage, Farms, Houses, or Bungalows. Have some nice places at Nassau Point either for sale or rent. See the last pages for some of my listings.

This catalog is our Silent Salesman, the only salesman we have on the road, and I hope you will treat it well and consult it whenever you are in need of anything in our several lines. Or better yet, come see us and talk it over.

Thanking you for your confidence in us in the past and assuring you that we will do everything possible to deserve it in the future, we wish you and yours a Happy, Prosperous and Successful Year.

Yours sincerely,

RALPH W. STERLING.

NOTE:—In all orders received before April 1st we include trial packets of different kinds of seed, the number of packets depending upon the size of your order. If you find any of these of particular value we would be pleased to hear of it.

If you cannot use this catalog or receive more than one will you kindly pass it on to someone interested. Thank you.

DIRECTIONS

By carefully reading and observing the following directions, mistakes will be largely avoided.

Please use the enclosed Order Sheet and self addressed envelope if possible. If you need more let me know and I will be glad to send more to you.

Write your name, address and shipping directions plainly.

Always send the cash with your order, unless otherwise agreed upon. Money may be sent by P. O. Money Order, Bank Draft or Registered Letter. Stamps may be sent for amounts under \$1.00, but be sure to put in two-cent stamps, wrapped in waxed paper.

We pay the postage on all seeds sold by the pkt., oz., and $\frac{1}{4}$ lb. Quantities over that are priced net, to be shipped by parcel post, freight or express, at purchaser's expense, unless otherwise stated.

If you desire your seed sent by Parcel Post, add 7c for the first lb. and 1c for each additional lb. of your order, allowing 2 lbs. extra for package. For amount of postage on plants see Plant Department. These rates are for anywhere on Long Island.

By pricing my seeds net, postage extra, you get your seeds delivered for less money than if I quoted a Postpaid price as the 7c per lb. extra would have to be counted in and added to each single lb. priced.

$\frac{1}{2}$ lbs. will be sold at lb. rates; $\frac{1}{2}$ bu. at bushel rates.

No charge is made for packing or packages.

HARBINGER OF SPRING

Perhaps the first real harbinger of Spring has arrived at our door—the seed catalog issued by R. W. Sterling of Cutchogue. It is an interesting booklet full of ideas for the home garden and listing all of the seeds and plants that are to be found in Long Island gardens.

We note that Mr. Sterling has added a new page to his ordinary announcement, and that is to the effect that he now enjoys the assistance of a landscape gardener. This is none other than Miss Helen Sterling, who has been making a study of this subject at the State School at Farmingdale and is now ready to help one and all to improve the appearance of their gardens and estates. Mr. Sterling lists much shore and other property in the back of his booklet. Some very desirable lots are described both on the Sound and at the Bay.

L. I. TRAVELER, 1931.

A MUCH ESTEEMED TRIBUTE

Sterling's Catalog has come: Let no careless hands touch it, mislay it or lose it. It is to stay in one spot, ready at hand, for the gardener studies it every evening. There's no better seeds and plants than Sterling's and there is no better fun than pouring over this book night after night and selecting enough growing things to cover a farm.

No "best-seller" now can touch this catalog. Fifty-four years' experience is back of it—may as many be ahead of it.

From THE L. I. TRAVELER, 1928.

SEED DEPARTMENT

"Burpee's Seeds grow and are the best that grow." We carry Burpee's Garden and Flower Seeds and you can purchase them from us as reasonable as you can get them elsewhere.

"STERLING STRAIN"

Follow the mark of "Sterling." We are always looking for the best strains of seed and where we find a superior one we place the name of "Sterling" on it. All other seeds listed are direct from Burpee unless otherwise noted.

If anyone is interested in spraying their crop of Lima Beans send to New York Agricultural Experiment Station, Geneva, N. Y. and ask for Bulletin No. 558, "Spraying Experiments with Bush Lima Beans," by Dr. E. E. Clayton.

For Mexican Bean Beetle use for dry dusting 9 parts Hydrated Lime and 1 part Corona Calcium Arsenate and apply as a very heavy dust, under the leaves as well as above.

For wet spray see George Leslie's testimonial on Page 19.

Some use the check row in planting their Lima Beans. Plant four rows Limas and the fifth row any kind of String Beans. The beetles seem to prefer the string beans and will flock to them and they can be killed if you act promptly, with 1-5 the labor and expense.

Treated with hot water.
2 to 3 ozs. will produce enough plants for 1 acre.

STERLING STRAIN. This is a very choice strain of seed, selected and grown by the same careful grower who has grown Sterling Strain Sprout Seed for a good many years. The plants grow medium tall and the sprouts are hard and smooth, commanding highest prices.

Have a limited supply of seed this year at 25c per pkt., \$2.00 per oz., postpaid.

LESLIE STRAIN. This is a very select strain of Brussels Sprouts, fairly tall growing, set closely with hard, smooth sprouts that bring highest prices. Per pkt., 25c; per oz., \$2.50; per $\frac{1}{4}$ lb., \$9.00, postpaid.

BLUE RIBBON STRAIN. This seed is grown from stock selected by the most successful Brussels Sprout grower in this section. Plants are fairly tall.

The sprouts are large, good color and hard. Very heavy yielding. Have a good supply of seed, 25c per pkt., \$2.75 per oz., \$10.00 per $\frac{1}{4}$ lb., postpaid.

CAULIFLOWER SEED

Treated with hot water.

2 to 3 oz. will produce enough plants for 1 acre.

STERLING LARGE EARLY ERFURT. Large white heads, heading up quite freely. One of the best strains for this section.

New crop seed. It tests good and strong and we know it is right. Per Pkt., 20c; 1 Oz., \$1.25; $\frac{1}{4}$ Lb., \$4.80; Lb., \$18.00, Postpaid.

Last year's seed, Pkt., 20c; per Oz., \$1.25; per $\frac{1}{4}$ Lb., \$4.00, postpaid.

CAULIFLOWER SEED—Continued

CATSKILL SNOWBALL. If anyone wants the Snowball type this is a very good strain and has been recommended highly. Heads up uniformly early.

Per Pkt., 25c; Oz., \$1.50.

All Cauliflower Seed will be treated with the Hot-water treatment.

Will have a large bed of Cauliflower, Brussels Sprouts and Cabbage Plants. Will be pleased to book your orders at any time. Prices always reasonable and ready to adjust them if changes occur.

Spray your Cauliflower and Brussels Sprout Plants with Black Leaf 40 or dust with Nicotine Dust. They control Thrip and Lice.

Greens and salads are rightly called "Nature's Tonics" because they contain mineral salts. The importance of these mineral salts in the diet cannot be overestimated. Greens and salads, such as Lettuce, Endive, Mustard, Spinach, Cabbage, Swiss Chard and Kale, are easily grown, have few insect pests and should be planted in variety and succession in every garden.

PEAS

Gradus.

GRADUS and THOMAS LAXTON grow tall vines and very large pods. The LAXTONIAN and LAXTON'S PROGRESS are dwarf in vine and have large pods and lots of them. These are the four best sorts for market.

The RADIO, BLUE BANTAM, LITTLE MARVEL, CARTER'S DAISY and TELEPHONE are the gardener's favorites for table use and for canning. Sow these five kinds together and they will follow each other through the season.

I have nearly 100 bushels of choice new crop pea seed this season. The prices quoted below for bushel lots are cash prices. Add 50c per bushel for time. Even though Peas do not pay as a market crop, the vines make fine green manure for Cauliflower or Brussels Sprouts.

1 lb. of Peas will plant 100 ft. of row.

774	KELVIDON WONDER. New English sort. Dwarf, very prolific and of fine quality15	.40	4.25	
	TELEPHONE. Sterling. If you do not plant these peas too late they will make an enormous crop, and are fine in quality and very large. 4 ft.10	.25	2.75	
784	QUITE CONTENT. The largest podded pea in existence. Sweet. 6 ft.10	.40		
815	MAMMOTH MELTING SUGAR. The best edible podded pea10	.45		

The above is a fine collection of peas and I have tried to list them in order of ripening. I advise you to select five or six kinds, plant the extra early ones as soon as you can work the ground, and then when ground is a little warmer plant the whole succession. Make a second sowing 2 or 3 weeks later. That will keep you supplied with peas as long as they will develop properly. Dust with Nicotine Dust for Aphis.

All the foregoing prices by the lb. and over are net, postage extra. See Page 1 as to postal rates. Pkts. postpaid.

FARM AND FIELD SEED

SEED POTATOES

Use 4 to 5 sacks to the acre.

We have a nice lot of Seed for Spring demand, both Cobblers and Green Mountains. All certified seed. Handsome stock.

	Pk.	Bu.	Sack of 150 lbs.
IRISH COBBLERS. Maine grown	\$.35	\$1.00	\$2.75
GREEN MOUNTAIN. Maine grown35	1.00	2.75

The above prices are net cash when you get the goods. Time prices are a matter of adjustment. Prices liable to change.

SEED OATS

Use 2 to 4 bushels to the acre.

My Seed Oats are very heavy and therefore it takes a few more pounds to sow an acre than it does of the lighter kinds, but the returns are so much more that it pays well.

SCOTTISH CHIEF. The best Oat that we have ever been able to purchase for this section. Very heavy and prolific. Per pk. of 8 lbs., \$.40; per bu. of 32 lbs., \$1.50.

ITHICAN. Certified. A new kind. True to name. Stools heavy. Very prolific. Pk., \$.40; Bu. of 32 lbs., \$1.25.

SEED OATS by the bag. A very heavy Seed Oat packed in 80-lb. bags. Per bag, \$2.00; 5 bags at \$1.75 per bag.

If anyone wants to sow Oats for pasture or for plowing under, Seed Oats by the bag are the kind to use, but if you expect to thresh your crop use Scottish Chief or Ithican. 10 or 20 extra bushels will more than pay for the extra cost of the seed.

SEED WHEAT

SPRING WHEAT. Marquis, the best Spring Wheat. Very prolific, early. Per pk. of 15 lbs., \$.70; per bu. of 60 lbs., \$2.25.

WINTER WHEAT, for Fall Seeding. Leap's Prolific. The most prolific, hardy and satisfactory Wheat ever grown in this section. Red kernel, stiff straw, bald. New stock. Price on application.

SEED RYE

SPRING RYE, more suitable to sow in the Spring than the Rosen Rye. Fine seed. Per pk. of 14 lbs., \$.75; per bu. of 56 lbs., \$2.30.

SEED RYE FOR FALL SOWING. ROSEN RYE. This is the best and the cheapest in the end as it is recleaned and of high germination. Get my prices before ordering elsewhere.

VETCH and CANADA FIELD PEAS

WINTER VETCH. For Fall Sowing. Mix a little in with your Rye for a cover crop. We find that it pays. Price on application.

SPRING VETCH. For Sowing in the Spring for a cover crop to plow under for a late crop. Mix with oats. 10 lbs., \$.75; per bu. of 60 lbs. \$3.75

CANADA FIELD PEAS—*Continued*

CANADA FIELD PEAS. For Sowing in Spring and early Summer for a cover crop to plow under for Cauliflower, Brussels Sprouts, etc. Both the Canada Field Peas and the Vetches are Legumes and add fertility to the soil. Use 1 bu. Peas and 1 bu. Oats to the acre. Per 10 lbs., \$.70; per bu. of 60 lbs., \$3.50; 5 bu. at \$3.35 per bu.

SOJA or SOY BEANS

Have the best kind of Soy Beans for this section. Used for plowing under green to build up your soil, or for hay. Sow in May or June, after ground gets warm.

EARLY YELLOW. Quick maturing, very productive. Per 10 lbs., \$.50; per bu., \$2.00.

Warning. Do not sow your Soy Beans, Sudan Grass or Spring Vetch until your ground is warmed up a little. If sown too early they will fail to germinate, or if they do sprout, they will not thrive.

SUDAN GRASS

If you have lost out on your Summer's Hay crop sow an acre of this and get a heavy crop of succulent, valuable fodder.

We find this the best Grass for Pasture that we have ever tried. Use 20 to 40 lbs. with 1 bu. of Oats, on one acre of ground. Sow after ground warms up on good soil and this acre will keep one cow in good condition all Summer. 2 acres will keep 2 cows and so on.

For Hay use 20 to 25 lbs. to the acre, broadcast, or 10 lbs. in drills and cultivate. Crops of 5 tons to the acre have been grown. Northern seed. Per lb., \$.10; 10 lbs. or more, at \$.08 per lb., 100 lbs. for \$7.00.

BUCKWHEAT

The best thing to sow on stump land, does well in sour soil. Fine for bees and to smother out bad weeds and quack grass. Best for seedling game preserves.

JAPANESE BUCKWHEAT. The best kind to use in this section. Very prolific. Very large grain. Per 10 lbs., \$.50; per bu. of 48 lbs., \$1.75; 5 bu. at \$1.50 per bu.

RAPE SEED

DWARF ESSEX RAPE. Makes a wonderful growth for seeding down hen yards, hog or sheep pastures. Per lb., \$.12; per 10 lbs. or more, at \$.10 per lb., 50 lbs. for \$4.00.

Mix 10 lbs. Rape and 1 lb. Kale for your Duck Greens.

Barley by the bag for green manure; per 100 lb. bag., \$2.75.

September, 1931.

The lawn we made in Westhampton for the New York Telephone Company we consider one of the best in that section. We used Sterling Lawn Grass Seed as we have on other jobs.

OAK PARK NURSERIES,
Per Mr. Gaut.

GRASS, CLOVER and ALFALFA SEED

Prices liable to change without notice.

Terms strictly cash.

I make my prices just as reasonable as is possible consistent with the quality. It is the very last fraction of 1% in purity that costs money. I believe that it pays big returns, too, as it is truer in seeds than in anything else that "the best is none too good."

My Hay Mixture for one acre is 10 to 12 lbs. of Timothy, mixed with 6 to 8 lbs. Clover, part Red and part Alsike, or all Alsike if you prefer, and sow early in the Spring, alone, or with Oats, or in August and September. If sown in wheat, sow the Timothy in the Fall with the wheat, and the Clover in March or April following.

In sowing Timothy alone without Clover use 15 to 20 lbs. to the acre. If your land is sour and Grass and Clover does not do well as a rule, a little lime sown on top of the ground and harrowed in before sowing the seed would be a great help.

We do not handle foreign grown Clover Seed. All our Clover and Alfalfa Seed is grown in the U. S. A.

Special prices on bag lots. Ask us about them.

LAWN MAKING

Our Lawn Grass Seed is exactly what we represent, recleaned and free from weeds, and we sell many hundred pounds all over Long Island.

Loosen the soil in which a new lawn is to be made to a depth of at least five inches, and lighten it with humus or several inches of sand, compost or manure if it is heavy and inclined to bake. Apply fertilizer liberally, either Sheep Manure, Bone Meal, V. C. Fairway or a commercial fertilizer. Peat Moss is also good.

Sow in the early spring when cool weather and ample rainfall will insure complete germination and a good start for the seedlings before hot dry weather comes. If seeding must be delayed, special precautions must be taken to prevent the ground drying out. Early fall is a very desirable time to plant.

See that the seed is well covered. Rake it into a new seed bed and roll so that the soil is firmed over the seed. Where seed is sown on an old lawn always cover it with a top dressing of sand or soil and fertilizer. Seed thrown on the top of hard ground has no chance to grow and will merely wash off.

We will do your grading and seeding for you at a very reasonable cost.

For a good, permanent lawn, use 1 lb. lawn seed to 400 sq. feet, 80 to 100 lbs. to the acre. For reseeding an old or poor catch, use half that amount. For quick results use a heavier seeding.

HUMUS

This is one of the best Lawn Makers, especially for poor soils. Mix 100 lbs. of this Dry Humus to a plot 20 by 20 and see the wonderful way the grass will grow where it is used. Also fine for spading in your flower beds, only use it in a larger proportion than above.

V-C FAIRWAY FERTILIZER

For Lawns and Grass

To have a lawn of closer, faster-growing grass that resists drought, stays greener—constantly thickens and spreads—use V-C Fairway Fertilizer.

This is the treatment now used on the lawns of country estates, polo fields and on the most famous golf courses.

Fifteen times as rich as manure; costs not more than 10 cents for each 100 square feet to be treated. Practically no odor.

Prices

Convenient, easy to handle. Complete directions for lawn treatment on every bag.

BLOOMMAID

For Flowers, Shrubs, Vegetables

If you want your flowers to bloom earlier and longer, your shrubs and hedges to be greener, thriftier, we recommend that you use Bloomaid. Brings blooms ten days to two weeks earlier—makes plants double the size of those not treated.

Use it in the vegetable garden, around shrubs and to enrich the soil in window boxes and flower pots.

Fifteen times as rich as manure; does not bring in weed seed or the spores of plant diseases.

Porto Rico, December 23rd, 1931.

Last year our friend Mr. D. O. Grathwohl had some cucumber seed from you which the writer happened to see growing in the field beside another kind. These cucumbers outclassed the other kind in every respect and he tells me they were Early Fortune.

This cucumber was a stronger grower and more prolific with longer fruit than the other kind, and while I have planted Early Fortune in years past I have never known them to be such a wonder, therefore you must have a wonderful strain of this variety.

If you can furnish us with the same strain of Early Fortune as was sold to Mr. Grathwohl, send us by mail 50 lbs. of this seed by first boat.

Thanking you for your personal attention to this matter,

Very truly,

M. H. F.

PLANT DEPARTMENT

STRAWBERRY PLANTS

Sterling Quality

My Strawberry Plants are raised on fresh ground, well fertilized and carefully taken care of. They are well rooted, healthy and true to name. We have tried out many, many kinds and find that only a few kinds seem to do well in this section. Such a kind is the Premier. This kind comes early and stays late, yields heavy and keeps its size well. The Corsican is very popular for mid-season, being large, sweet and very prolific. We have yet to find an extra good late berry for this section. Gandy is good, but has its faults. Chesapeake is a very shy bearer with us, but extra in quality. All plants are from a new bed. No old plants are ever sold by me.

Price List of Sterling's Strawberry Plants

	25	100	300	1000
PREMIER or HOWARD, NO. 17. The best kind I have ever tried for table use or for market. Begins to ripen early; large, long red berries and keeps right on through the longest season of any berry found yet, and keeps its size and color well, right up to the end of the season. Everybody is praising Premier and there's a reason. If you can only have one kind this is the kind to have	\$.25	\$.75	\$2.00	\$6.50
RYKEMAN. Considered by some the same as Corsican, and by others even better.....	.25	.90	2.50	7.00
CORSICAN. One of the sweetest berries grown. Large plants, leaves and berries, fruit stems long and stiff. Very productive25	.90	2.50	7.00
THE BEST. Very large, good quality.....	.30	.90	2.50	7.00
HARVEST KING. New. Mid-season, prolific	.35	1.00		
MARSHAL. This is considered the best quality berry there is, but not real heavy yielding. Dark red40	1.00	2.75	9.00
CHESAPEAKE. One of the best for late where it will do well. Fine quality. Nice plants... Have tried to list the 7 kinds named above about in their order of ripening.	.30	.90	2.40	7.50

All kinds have perfect blossoms and can be set alone if desired.

EVERBEARING STRAWBERRY PLANTS

MASTODON. The largest and best Fall bearing berry we have tried yet. Very sweet berries. Heavy yielding.

Set the plants this Spring, keep all blossoms pinched off until July and then thin the blossoms out 40% right through the rest of the season. You will then have good-sized berries of fine flavor right up to freezing weather and another crop the following Spring. Per doz., 30c; per 3 doz., 85c; per 100, \$2.00.

All prices quoted above are net at the farm. If you want your Strawberry Plants sent by Parcel Post add 8c per 25, 15c per 100, 20c per 200, 30c per 300; quantities over that should be sent Postage C. O. D. or by Express collect.

Strawberry Plants in August, September and October

We will have about all the kinds listed and some new kinds as well for Summer and Fall setting, from our new bed. New plants, well rooted and true to name.

The price for Summer and Fall is higher than Spring prices, but I try to make the price as reasonable as possible and I think you will grant that, when you consider that one, two or sometimes three smaller plants have to be thrown away and wasted in order to get one good, strong, well-rooted plant.

Write for prices.

RASPBERRY PLANTS

CUTHBERT. One of the best for this section. Prolific, large, sweet berries. Makes plenty of plants. Per doz., 90c; per 2 doz., \$1.50; \$4.00 per 100.

LATHAM. New. One of the strongest and healthiest. Large berries. Per doz., 90c; 2 doz. for \$1.75.

ST. REGIS. Everbearing. The best everbearer yet found. Price per doz., 90c; 2 doz., \$1.50.

CUMBERLAND. The best Black Cap Raspberry. Large, firm, delicious. Nice plants. Per doz., 90c; per 2 doz., \$1.50.

BLACKBERRY PLANTS

MARY WASHINGTON. One-year old roots. From Re-selected Pedigree Seed. Originator's stock. Prof. Norton claims that this kind is the largest, most productive and finest flavored Asparagus yet developed. Very high branching which makes it the best for cutting green. Rust-resistant....	\$.20	\$1.00	\$ 8.00
MARY WASHINGTON. Two-year old roots. These will make large shoots, ready to cut next year. Stock limited30	2.00	

All expert gardeners and farmers will tell you that one-year-old Asparagus Roots are the best kind to set out for field culture. One-year-old roots recover quickly from the shock of transplanting and are not badly cut and broken. Set out Sterling Grown Roots this year, about six inches below the surface of the ground, cover with two inches of soil. As the plants grow up fill trench with well rotted manure and more soil, and some good garden fertilizer on top of that. Do not put fertilizer next to any kind of root or plant if you want them to live.

If properly taken care of you can cut your bed the following Spring until June 1st, letting it grow up after that and giving it more manure and fertilizer. The second year from setting cut till July 1st, always feeding it well after letting it grow up.

REAL ESTATE

STERLING INLET

We own these two lots at Nassau Point, Nos. 225 and 226, Nassau Point Map. They extend from Wunneweta Road on the east to a branch of Wunneweta Pond on the west, which we call Sterling Inlet.

Wunneweta Pond is the body of water that the new bulkheaded channel connects with Great Peconic Bay. This makes Wunneweta Pond a land-locked harbor and Sterling Inlet absolutely safe for your boats in any kind of a blow.

These two lots have a frontage of about 100 feet each on Sterling Inlet, have good elevation suitable for a home overlooking the water, large oaks cover the whole tract, there is a small fresh water pond on one of the lots and they both have great possibilities for a beautiful landscape job.

Price of lots, only \$3,500.00 for Lot No. 226; \$4,500.00 for Lot No. 225. One-third cash, the balance on purchase mortgage.

We have had application from boat owners at the Point for privilege of harboring their boats in Sterling Inlet. If not sold will be pleased to quote the small charge per month. If interested call me up.

Would be pleased to quote you prices on Rambo Island adjoining Lot No. 226, which is Lot No. 246 on the map, also price of Lots No. 223 and 224. They adjoin my two lots and are very good lots and priced reasonable.

CARRINGTON PARK

Four lots at Nassau Point, Nos. 421, 422, 423, 424, fronting on Little Peconic Bay Road. These lots are high, deep, large lots, each one having over 100 feet frontage and 250 feet deep. Large oaks cover the whole tract and they have been cleared up in a fine park-like effect. Just across from Carrington Park a 15-foot right of way extends to Wunneweta Pond, only a short distance away, and Horse Shoe Cove is only a little way in the other direction.

This large tract would make a wonderful estate if one wanted a big place or we will sell each lot separate if you desire. Price of each lot, \$2,000.00; one-third cash.

Safe in Wunneweta Pond—let 'er blow!

HORSE SHOE COVE LOTS

Lots No. 314 and 316 are for sale and can be bought very reasonable. They have a frontage of about 65 feet on the Cove and go back to Vanston Road a distance of about 600 feet, and have a frontage of about 300 feet on Vanston Road. These two lots should be kept together to realize their worth. They are covered with oak trees and landscaped with evergreens, rhododendrons and roses. There is a wonderful high location near the Cove, a wonderful view of the bay and you are assured of the prevailing breeze which comes from the southwest. The Cove is a perfect natural harbor and is deep enough to harbor the largest yacht in the bay. If interested call Peconic 55 or drop me a line.

We also have for sale Lot No. 281 which has a frontage of 100 feet on the Cove, a depth of 200 feet, has a high bank, is bulkheaded and commands a fine view of Great Peconic Bay and its shore line. In back of this lot we have the sale of 18 lots in the Jersey Tract. Also a fine new house and garage. The house contains five rooms and bath, is very convenient, is nicely landscaped and can be bought very reasonable. Price of all these lots and house given on request. The whole Jersey Tract has full water privilege over a 10-foot right of way to the Cove.

SUNSET BLUFF

Bargain prices here. If anyone is looking for a bargain here is their opportunity. Five large lots, over 550 feet of frontage on Haywaters, at about \$15.00 per foot.

Haywaters is a beautiful sheet of water flowing into Peconic Bay and these five lots are on this water. They run from 250 feet depth on the north line to 600 feet on the south. Large oak trees cover the whole piece. This tract is going to be sold and if you are interested in a large piece of waterfront at a low figure make an appointment with me, look it over and make us an offer—and do it right now.

We have many other lots and some fine houses which we would

be pleased to show you. The best time to rent for Summer of 1932 is now. Rents are cheap now, but if demand comes back to normal they are bound to go up.

THE BRIAR PATCH

A strip of 142 feet frontage on Eugene's Creek, about 575 feet deep and 142 feet on Harbor Lane. There is a 20-foot right of way running through the center of this strip, connecting Harbor Lane with Eugene's Creek.

We have two nice lots on the creek, 61 feet frontage and about 150 feet deep, priced very reasonable. Have other lots on the right of way priced as low as \$200.00. The two lots on Harbor Lane are very good and very reasonable.

Telephone and electric light wires go right by the Briar Patch. We have sold one lot in here and would be pleased to show you over the piece.

We have the sale of two lots at the foot of Harbor Lane, 50 feet on the creek by about 150 feet deep.

If you are looking for something good at a very low figure here is your chance. Come look it over and make us an offer.

PEQUASH CORNER

A large corner lot on the Main Road. This is a fine corner for business or residence, in fact the only corner lot available in the village. I will be pleased to show it to you and quote you attractive figures on the whole piece or on part.

FLEET'S NECK

We are offering for sale 120 feet frontage on Great Peconic Bay at Fleet's Neck, about the only piece of bay front available on the Neck. It has a fine sandy beach, large trees and is about 300 feet deep. One bungalow is on the tract and there is room for three more. The price is very reasonable, considering the location. Write or phone.

TUTHILL WOODS

A tract of about 16 acres that we are developing. Three new houses have been erected and there is a promise of one or two more this Summer. A three-rod road has been opened up through the center of this piece and we call it Taylor Avenue. Lots on the Middle Road are all sold but we have 20 or more good lots on Taylor Avenue, 75 feet frontage and about 125 feet deep, priced very reasonable.

There are about eight acres on the north end of Tuthill Woods which could be developed into a very valuable gravel and sand pit. We have several parties looking it over and if you are interested in sand and gravel for construction and building purposes we would be pleased to show you over the piece, the results of our borings and make any more borings in any part of the tract that you might desire. We have gone down to good depth and found excellent material at all depths.

I have a Real Estate Broker's License and have many Houses, Bungalows, Waterfront Lots, Farms, etc. to rent or sell. If interested Phone Peconic 55 or call any weekday and I will be glad to show you around.
